

Report an incident that occurs at a mine to WorkSafe

Reporting an incident and definitions are available at www.dmirs.wa.gov.au/WHSincident

For a PCBU who is not the mine operator.
For notifiable incidents you must preserve the site and notify the regulator first, and then notify the mine operator as soon as practicable after notifying the regulator [r. 675X(1)].
For reportable incidents you must notify the mine operator as soon as practicable after the incident occurs [r. 675X(2)].

In all events evaluate the incident.

Where the analysis shows the control measure did not control the risk, review the control measure(s) [r. 38].

A serious injury, illness, a death or a life-threatening dangerous incident can be notified 24 hours a day, 7 days a week by calling 1800 678 198.

All mine incidents must also be notified online.
